

Claims

I Claim:

1. A disposable diaper and wipe combination including premoistened baby wipes containing:

said premoistened wipes included inside the affixed sealant packet not allowing the wipes to dry out or come into contact with other sections of the diaper, the pocket added in a manner that is located inside the diaper whereas not to be seen when looking at the back of the diaper, the extension of this pocket in a size allowing for at least five wipes, folded in on themselves, to be included, means of accessing the wipes by opening a zipper style closing; this is the same means in closing the pouch.

2. An optional addition of other materials needed in the baby changing process (i.e. medical ointment or baby powder) affixed in the same manner as the wipes.

3. A variation allowing for addition of this pouch in a manner that may be removable (location at the manufacturer's discretion) allowing its purpose to be served at any time be it during or after the changing process.
